

## HONOLULU SEES THINGS AT SEA; BUT NO BATTLE

A mighty good story of naval conflict in Hawaiian waters was shattered this morning when a vessel speeding in from the sea proved to be the naval tug Navajo, back from the peaceful choppage of some submarines which were taking spins in the sea.

About 9 o'clock this morning the military experts in the Stangenwald building saw a long, low rakish, gray and altogether warlike looking craft speeding along the sea-horizon from east to west. She was apparently in a hurry. After awhile this vessel disappeared.

Half an hour later on the purple edge of the sea directly south of Honolulu harbor a speck appeared—a naval-looking speck. It grew rapidly larger and soon was seen to be a vessel coming on at a smashing speed.

"It's a warship coming into port—there's been a battle," cried the Stangenwald admiral.

The vessel rushed along and pretty soon came within easy distance. It proved to be the tug Navajo and inquiry on the waterfront showed that it had been conveying some submarines at their morning spins.

The long, low, rakish, gray craft was not seen again. The observers are not sure whether she was the Nurnberg or the Idumea. The report that it is the Iron Duke is rather discounted.

### POLITICAL NOTES

The Bijou political meetings start tonight, the program for the rest of the week being as follows:  
Sept. 3—Senators' night.  
Sept. 4—Representatives' night.  
Sept. 5—Mayors' night.  
Sept. 6—Supervisors' night.  
Sept. 7—County officers' night.  
Sept. 8—Rice night.

An account of the trip of Auditor Bicknell and others around the island last Sunday, in yesterday's issue, mentioned Hauia as Link McCandless' stronghold. It should have been Waike.

Practically the entire roster of Democratic candidates-at-large, including L. L. McCandless, Mayor Fern, and aspirants for supervisory jobs, together with the candidates for representative from the Fifth district, will appear at Waike this evening. The meeting is called for 7:30 o'clock. McCandless, Mayor Fern and supervisors reported for that place this afternoon.

Senatorial and fourth district candidates on the Republican ticket, with county candidates to follow, will have an opportunity of talking to the voters of Kaimuki at Lihoukalani school at 8 o'clock this evening. At 7:30 the Republican club will meet to make nominations for county committee members, which must not close until 8 o'clock. Residents of the entire east end are expected to be out in force for this rally.

## WEAVER RULES THAT BOTH CAN RUN FISHMARKET

Deputy City and County Attorney P. L. Weaver has decided that the board of supervisors and the territorial board of health have concurrent jurisdiction over the public fishmarket. He thus contradicts the opposing opinions which recently developed between those two boards, each holding that the other possessed sole power and responsibility, so that when A. L. C. Atkinson appealed to them for two permanent fish inspectors each politely but firmly refused to accept the expense.

The board of health a few days ago decided that the law gave the supervisors sole power in this matter, and a letter sent to the supervisors communicating this sentiment was referred to Attorney Weaver, who replied in a written opinion that doesn't seem to clarify the situation much. So far as known the fishmarket has had no inspectors since September 1.

Weaver, learnedly discussing the subject, avers the supervisors are not compelled to appoint fish inspectors and asserts their appointment is one of "political policy expressly within the powers of the board of supervisors." He believes that under the existing laws either or both boards may carry on the inspection. His opinion and the communication from the board of health were referred to the supervisors' committee on health and sanitation for further consideration.

The supervisors today awarded contracts for the construction of 25 school buildings on Oahu, the job in each instance going to the lowest bidder. In practically every case the board ruled that the contractor will be required to finish the structures in 60 days' time. The awards are as follows:

H. L. Fernandez, three buildings at Ewa, \$1542; H. L. Fernandez, three buildings at Waike, \$1542; Freitas & Fernandez, three buildings at Aiea, \$1335; Pacific Engineering Co., four buildings at Waike, \$2160; H. L. Fernandez, two at Kahuku, \$1126; Pacific Engineering Co., one at Waike, \$535; H. L. Fernandez, one at Waike, \$570; Otto Oss, two at Manoa, two at Kalia, \$875, \$834 and \$1720 respectively.

Building Inspector C. G. Murasky reported that during the month of August 41 building plans were filed in his office for new structures in Honolulu; 67 permits were issued and 128 inspections made, and he estimates the cost of new construction reported that month at \$73,532.

### BIRTH

BORGES, to Mr. and Mrs. M. J. Borges, postmaster at Schofield Barracks, a son.

Mrs. Violet Vares has filed a petition in circuit court asking that she be appointed guardian of Harriet Olson, minor, daughter of the late Karl Emil Olson. The estate is worth approximately \$100.

## NURNBERG MAY HAVE SAILED FOR MARSHALLS

Did the little second class cruiser and commerce destroyer, Nurnberg, which made its spectacular entry at the port of Honolulu on Tuesday receive generous supplies of provisions and fresh vegetables during a call at the Marshall Islands?

This is a query that is interesting Honoluluans with the departure 14 hours later on a mission that has thus far been kept a profound secret between the few officers in the vessel and local representatives of the German government.

That a German war vessel was hovering among the 33 islands making up the Marshall group that lies 2000 miles to the south and westward of Hawaii at the time the Japanese passenger and freight carrier Selyo Maru made its first departure from Honolulu is today declared to have caused the immediate return of the Toyo Kisen Kaisha to this port, after that vessel had proceeded 160 miles to the westward in the direction of Japan.

Safe Haven for Nurnberg. It is the Nurnberg that is now believed to have been lying at the Marshalls on Aug. 17 when the alarming cable was received by the local agents of the Toyo Kisen Kaisha that caused an urgent wireless message to be dispatched to Captain Hinokumo of the Selyo Maru that sent him hastening back with his command to again seek the friendly shelter of neutral waters off the shores of Oahu.

When the Nurnberg steamed out of Honolulu harbor at 9:30 o'clock Tuesday night it was thought by some that Captain von Schoenberg lost but little time in setting his course for the Marshall group which since 1885 has belonged to Germany. They are situated east of the Carolines, at which point there is a cable that connects with the outside world. The cable station at Yap is reported still open to communication.

The Marshalls are to the northward of the Gilbert Islands and the group consists of two parallel chains, the Ratak group of 15 islets and the Ralik group of 18 larger islands in the west, comprising a total area of about 154 square miles.

While the winds at their highest point do not rise to a greater distance than 12 feet, they are densely covered with verdure and are said to afford a very satisfactory shelter for a vessel of the size of the Nurnberg.

In the Carolines and in German New Guinea are high powered wireless telegraph stations through which the Nurnberg could keep in constant communication with the outside world.

The remarkably well-filled bins of potatoes, onions, lines of fresh fruits and vegetables found on board the Nurnberg upon its arrival at Honolulu bear out the theory that the vessel had secured supplies but a short time ago.

According to well-informed authorities the Marshall group has a population of about 16,000 natives who are expert in the weaving of mats and produce quantities of coconuts. At a pinch coconuts might be readily used as fuel as it was mainly through the use of this product that the big Norddeutscher Lloyd steamer Pomern made its remarkable passage from Sydney to Honolulu.

### THICK, GLOSSY HAIR FREE FROM DANDRUFF

Girls! Try K.I. Hair gets soft, fluffy and luxuriant at once—no more falling hair.

If you care for heavy hair, that glistens with beauty and is radiant with life; has an incomparable softness and is fluffy and lustrous, try Danderine.

Just one application doubles the beauty of your hair, besides it immediately dissolves every particle of dandruff; you cannot have nice, heavy, healthy hair if you have dandruff. This destructive scour robs the hair of its lustre, its strength and its very life, and if not overcome it produces a feverishness and itching of the scalp; the hair roots fall out, loosen and die; then the hair falls out fast.

If your hair has been neglected and is thin, faded, dry, scraggy or too oily, get a 25-cent bottle of Knowlton's Danderine at any drug store or toilet counter; apply a little as directed and ten minutes after you will say this was the best investment you ever made.

We sincerely believe, regardless of everything else advertised that if you desire soft, lustrous, beautiful hair and lots of it—no dandruff—no itching scalp and no more falling hair—you must use Knowlton's Danderine. If eventually—why not now?—advertisement.

## WAIKIKI INN DANCE TONIGHT

The usual Thursday evening dance will be held at Waikiki Inn this evening. You are cordially invited to attend and enjoy an exceptionally pleasant evening—advertisement.

The Pacific Mail liner Korea, due in Honolulu from San Francisco tomorrow morning, will be crowded with passengers this trip, writes A. P. Taylor, representative of the Promotion Committee in the coast city, but the majority will be for the Far East, owing to the fact that the steamer Persia has been taken off her run, temporarily, because of the fear of capture.

## "HONOLULU" OFFICIAL ORGAN OF CHAMBER OF COMMERCE, MAKES DEBUT

"Honolulu." The official organ of the Chamber of Commerce of Honolulu, made its initial appearance this morning in the form of four pages containing news matter pertaining to the work of the local chamber and of like organizations elsewhere. Under the caption, "This is Our Debut," the following article introduces the publication:

"This publication represents the live businessmen of a 1914 live town on one of the most beautiful spots on earth, and in the very nature of things our advent is but an offshoot of exuberance of enthusiasm which has burst forth through believing in what we have and being aware of the necessity of going after additional things we feel we should have; in inspiring a sense of individual civic responsibility and an active interest in community affairs; in aiding in passage of beneficial laws; in acquiring preserving and disseminating business information and, generally, in advertising and promoting the welfare of the Territory of Hawaii.

"These are the principal reasons for our being, and in them we find good and sufficient reasons why you should expect us.

"Now that you know our purpose and we are acquainted, we're coming around about once a month.

"We have 237 live wires working to a common end. There may be others who would like to become 'live.' If they are optimists, they can help us. If they are pessimists, Sure! Bring them anyway. If there is yet a sign of life, we can help them. Many good men have gone to defeat because they didn't get away right. They have been elbowing with the wrong fellow. Bring them along!

"THE EDITOR."

"Honolulu" is from the press of the Star-Bulletin.

Detectives during a raid on houses occupied by Germans in London in one place discovered a large number of bombs and rifles. Several arrests were made.

Mayor Mitchell of New York has announced the appointment of a citizens' committee to cooperate with the State Department in aiding Americans stranded abroad.

## LOCAL AND GENERAL

Chief Justice A. G. M. Robertson of the supreme court has reappointed E. P. Aikue as district magistrate at Koolauapoko, Oahu.

Judge Whitney today granted a divorce to Mary Kaia from John Kaia, whom she accused of desertion and non-support.

A meeting of the members of Schofield lodge, F. & A. M., will be held at Lelehu at 7:30 o'clock this evening. There will be work in the third degree.

A meeting of the Free Kindergarten and Children's Aid Association will be held in the Library of Hawaii Friday morning, commencing at 9:30 o'clock.

Farm Cornu, former Chinese interpreter in the First circuit court, today took oath before Clerk Henry Smith was practicing attorney in the district court.

The members of Theodore Roosevelt Camp No. 1, U. S. W. V., will meet at 7:30 o'clock this evening at the headquarters of the camp, Alakea and Merchant streets.

Petition for dissolution and disincorporation has been filed in the territorial treasurer's office by the Portuguese Mason Works, Ltd. The firm was incorporated November 26, 1912, with a capitalization of \$4500.

Ten minutes before the great register closed at midnight last night, at the office of the city and county clerk, the last voter had signed his name and 9495 qualified voters had enrolled for the approaching primary of September 12. A total of 9707 names is on the books, but this includes a number who have died since they registered. The work of classifying electors and printing the lists for various precincts is well under way and should be finished by next Monday.

An increasing demand is being made upon the Associated Charities for children's clothing. Several hundred children in various districts of the city, says Manager Spencer Bowen, will in some way have to be supplied with clothing in order that they may attend school this fall. Residents of Honolulu wishing to make donations of children's clothes are requested to either call in person at or phone the office of the Associated Charities. The telephone number is 2253. The organization will gladly call for donations.

"Terrestrial Magnetic Measurement" will be the subject of an address which H. S. Merrimon, in charge of the United States magnetic observatory near Sinal, Oahu, will deliver at the Library of Hawaii this evening, commencing at 8 o'clock. The lecture will be under the auspices of the Hawaiian Engineering Association, and a cordial invitation to attend is extended to the members of the organization as well as to other persons interested in the subject chosen by the speaker.

The form of ballots which will be handed the voters on September 12 was finally approved by Territorial Secretary Thayer this morning. The only alteration made in the form which proved objectionable to the Board of Elections is that the instructions "Vote for One Only" and the Hawaiian equivalent are to be shifted from the extreme edge of the ballot to positions halfway between the edge and the center of the ballot. City and County Clerk David Kalauokalani at once ordered the reprint and the new ballots will be ready in ample time for use.

## WAR BREVITIES

German Cruiser in Monterey Bay?

MONTEREY, August 26.—A cruiser thought to be the Nurnberg or the Leipzig steamed into Monterey bay shortly before midnight and dropped anchor about half a mile off shore. The forepeak, the anchor lights, a green light on the mizzenmast and a green stern light were observed. Owing to the extreme darkness it was impossible to ascertain her identity. An effort was made to get permission to visit the vessel from government officers at the Presidio of Monterey, but without success. Her lights have all the indications of a vessel of war. The Nurnberg was last heard from three days ago at Tascos Island, when she was sighted south bound.

England to Take Pacific Mail Ships.

SAN FRANCISCO, Aug. 25.—The Pacific Mail steamers Nile and Persia, which are under British registry, will be used by the British naval forces in the Pacific as scout steamers. The information comes from J. H. O'Neill, who is district agent at Seattle for the Oregon and Washington Railroad and Navigation Company, with Pacific Mail affiliations. As quickly as possible the Nile and the Persia will be fitted out for duty.

Parisians Put Art Treasures in Vaults.

LONDON, Aug. 25, 4 a. m.—A Paris dispatch to the Standard says that the authorities at the Louvre have removed the Venus de Milo and other art treasures, gems and state jewels to the vaults. They have also strengthened the roofs of all the picture galleries with sandbags and other protection against an aeroplane bomb attack.

France Buys 15,000 Horses in Indiana. LAFAYETTE, Ind., Aug. 25.—Members of a local stock buying firm began today buying horses which are to be shipped to France for use in the allied armies. The Lafayette firm an-

nounced it had received an order for 15,000 animals from the French government.

German Boys Ordered To Learn Musketry. LONDON, Aug. 26 (12:22 a. m.)—The official News Bureau says: "The German papers of August 22 and 24 publish orders that boys from 16 to 19 years of age shall be put through a course of musketry and military training. Retired officers are to be engaged as instructors."

Red Cross Faces Its Greatest Task.

WASHINGTON, Aug. 22.—The American Red Cross Society today observed the fiftieth anniversary of the adoption of the treaty of Ghent, commonly known as the Red Cross treaty, by energetically bending its energies toward ameliorating as far as possible the sufferings of thousands of wounded in the wakes of the European armies.

It was pointed out by Red Cross officials today that the greatest demand on the resources of the world-wide organization of the Red Cross in the 50 years of its existence is being made now as a result of the clash of arms in Europe.

Beautiful Cavalieri Sings to Soldiers.

PARIS, Aug. 22.—Lina Cavalieri has been separated from her husband, Lucien Muratore, by the war until recently. He is a member of the territorial army, and is stationed in the south of France.

She has just joined him at his post. She wears a man's suit of khaki. In his few idle moments Muratore and his wife pass their time singing patriotic songs (free but worth on the stage about \$300 a song) to the soldiers.

Conditions of War Prevail in Holland.

LONDON, Aug. 22.—The Daily Mail's Ostend correspondent, who has just returned from a tour of the Dutch frontier, says the conditions in Holland are almost absolutely those of war.

"I had the interesting experience," he said, "of being taken blindfolded into a fortress in the dead of night under an armed guard to justify, if possible, my presence on the frontier."

The correspondent states that an official statement issued at Antwerp says: "The governor of Antwerp is determined not to remain on the defensive. He will harness any German forces attempting to mask the fortress."

Father Pales as Son Goes to Heroic End.

PARIS, Aug. 23.—Colonel Folque, commander of a division of artillery at the front, recently needed a few men for a perilous mission, and called for volunteers.

"Those who undertake this mission will perhaps never come back," he said, "and he who commands will probably be one of the first sons of France to die for his country in this war."

Volunteers were numerous. A young graduate of a polytechnic school asked for the honor of leading those who would undertake the mission. It was the son of Colonel Folque. The latter paled, but did not flinch. His son did not come back.
